

How to become a reader

To use the library's services, you must have a **library card**. A library card is issued to registered readers.

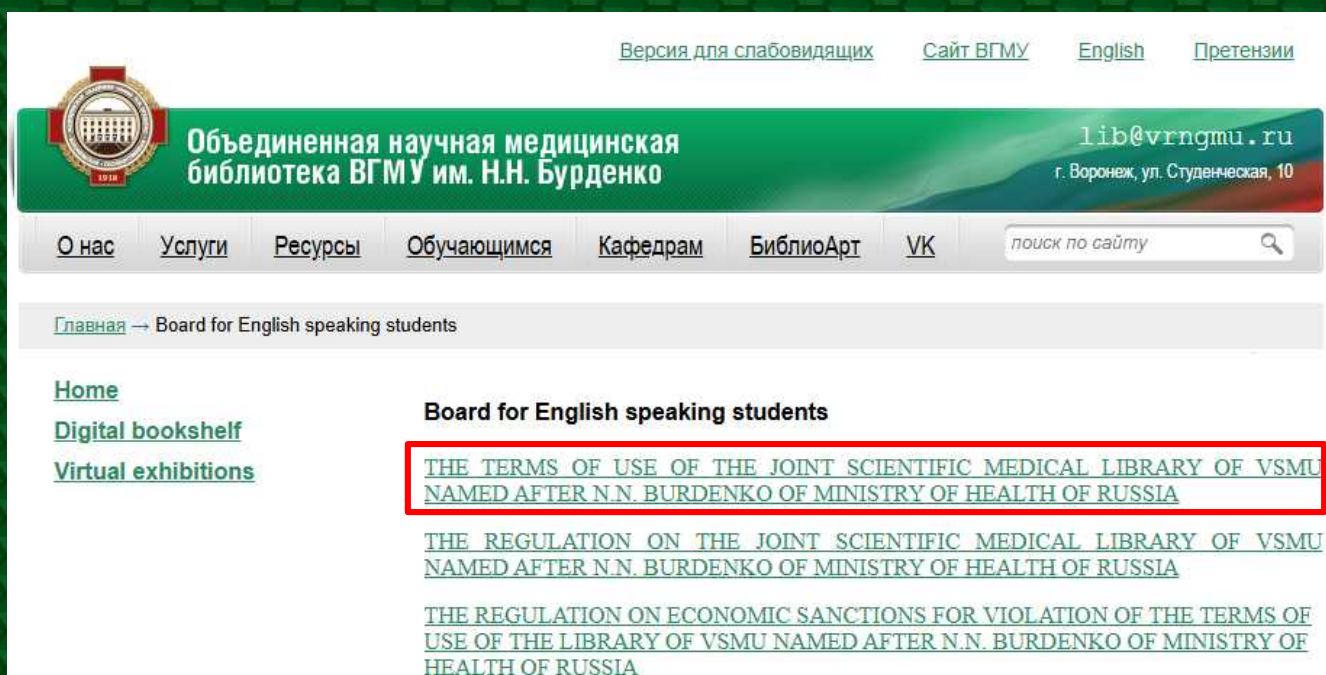

ЧИТАТЕЛЬСКИЙ
БИЛЕТ

Students register with library staff and receive a library card on their first visit.

Clinical residents, postgraduate students, staff, doctors, and students of the ICPE can register at the scientific literature desk (main building, room 22).

Detailed information is contained in the Terms of Use of the Joint Scientific Medical Library of VSMU named after N.N. Burdenko of Ministry of Health of Russia (paragraphs 2.1-2.4).

When changing from one reader category to another (for example, a student completing their studies and becoming a resident, then a university staff member/physician), **RE-REGISTRATION** is required. Registration (re-registration) can be completed remotely using the "Online Registration" service. To do this, complete a special form on the library's website.
